

User Manual

Little Sun Original

English

1 LED

Charge your Little Sun in the sun for 8 hours before using for the first time

Make sure the solar panel is always facing up when charging. For best results, place in direct sunlight

Turn your Little Sun off when charging

2 Glow-in-the-dark button with multi-level dimming function:

Bright light: press once

Dim up or dim down: hold

Off: press again

5 hours of charging in the sun can produce up to 50 hours of light or more when you use the dimmer, or 4.5 hours on the bright light setting. The unique dimmer puts you in control of the level of light you need. This way, you get the most out of your Little Sun

To maintain battery life, charge regularly, at least once a month

For outdoor use:

CAUTION risk of electric shock. Do not submerge in water
Battery disposal: please dispose of the battery in compliance with local regulations

3 Solar Panel

Little Sun will charge in any weather. When it's overcast, Little Sun will take longer to reach full charge

Little Sun is water resistant and has an IP44 rating

If your Little Sun gets dirty, clean its exterior surfaces with a warm damp cloth
